

Valtteri Bottas Duathlon moves to 2021

Valtteri Bottas Duathlon powered by Tunturi has, together with its partners, come up with a solution to move the event arrangements directly to 2021.

Valtteri Bottas feels sorry about this but encourages everyone to keep their minds high, go out and exercise safely according to general guidelines.

“When I wore my racing suit in Australia in March, I didn’t yet realize the extent of the corona situation. For myself, health is the most important thing of all, and I am never ready to play at my own or others’ health expense. We have been having discussions with partners and production, and I am glad that we found common decision with everyone. As a result, we will move the event directly to 2021.” - says **Valtteri Bottas**.

The name partner of the event, **Tunturi**, considers the decision is right. “Although cycling as a form of exercise is still growing strongly, we as a company must be prepared for possible additional measures. When there is not yet a clear picture of the duration of the situation, it is better to focus on health and well-being.” - **Riku Mikkonen, Tunturi's Country Director, describes**.
